Objective

I aim to demonstrate my commitment to continuous learning and growth, with a focus on staying updated with the latest technologies and industry trends, in order to contribute towards a successful project.

Education

Posts and Telecommunications Institute of Technology

2019 – 2023

Engineer of Application Development – GPA: 3.2/4.0

(Completed the study program)

Experience

BLACKWIND

Full-stack Developer | 05/2023 – Present

- Developed features for both the front-end and back-end of the platform based on business analyst requirements.
- Coordinated and provided APIs for the mobile programming team, enabling seamless integration between mobile app and web app.
- Integrated third-party modules, including Mailchimp for email marketing and Misa for invoice management.
- Implemented the installment payment function for orders using Onepay, facilitating purchase conversions.
- Synchronized the database, reviewed and merged code between the test environment and the production environment, ensuring data integrity and code stability.
- Design and develop tools to automatically create stored procedures for the team.
- Applied Agile methodology and maximized efficiency through utilization of Jira for task management.

TORITECH

Back-end Developer | 10/2022 – 05/2023

- Received task from team leaders, analyzed them thoroughly, and designed efficient and scalable database structures.
- Supported the front-end team by providing technical guidance and collaborating on API integration.
- Wrote comprehensive unit tests for API endpoints, ensuring code quality and functionality.

MEOW HOUSE

Back-end Developer Intern | 07/2022 – 09/2022

- Developed and maintained the company's website based on the requirements and feedback from superiors.
- Gained practical experience in deploying web servers on Microsoft Azure.
