Vo Hieu Thang

NodeJS Developer

- 0337465261
- vohieuthang2001@gmail.com
- 30-05-2001
- Thu Duc, Ho Chi Minh City

Skills

- Scripting languages: JavaScript, TypeScript.
- Framework/Library: Node(Express, Hapi), Nest, React.
- Other languages: HTML5, CSS3.
- Databases: SQL Server, MySQL, MongoDB.
- Additional skills: Understanding OOP, git, docker.
- Soft skill: Communication, team-work, collaboration.

Language

English
- Toiec 670
- Reading documentation
- Basic communication

Learning

- Microservices architect
- AWS

Links and Credentials

- Linkedin
- Github

Summary

- Over **1.5 years of experience** in Software Development.
- Strong proficiency in Web Application using JavaScript.
- Ability to learn and apply new technology quickly.
- Proficiency in: Express, Nest, React, SQL, RESTful API.
- Proficient use of source code management tools: Git, GitHub, GitLab.

Education

Posts and Telecommunications Institute of Technology   09/2019 - 01/2024
Major: Application Development
GPA: 3.37/4.0

Experience

Full-stack Developer   05/2023 - 02/2024

Blackwind | Onsite - Tan Binh, Ho Chi Minh City

- Developed features for both the front-end and back-end of the platform based on business analyst requirements.
- Coordinated and provided APIs for the mobile programming team, enabling seamless integration between mobile app and web app.
- Integrated third-party modules, including Mailchimp for email marketing and Misa for invoice management.
- Implemented the installment payment function for orders using Onepay, facilitating purchase conversions.
- Created and sent order XML files using the SFTP to purchase Samsung phones.
- Synchronized the database, reviewed and merged code between the test environment and the production environment, ensuring data integrity and code stability.
- Designed and developed tools to automatically create stored procedures for the team.
- Applied Agile methodology and maximized efficiency through utilization of Jira for task management.

Project	ShopDunk ERP Platform - https://erp.shopdunk.com
Descriptions	ERP web application allows businesses to manage human resources, accounting, finance, sales, warehouse, and orders.
Responsibilities	Develop web modules, integrate third-party, review and optimize code.
Tech stack	• Frontend: React, Redux, Antd, Scss, etc. • Backend: Node - Express Framework, SQL Server, MQTT, Redis, RabbitMQ, Docker, etc.

Back-end Developer   10/2022 - 04/2023

Toritech | Remote

- Received task from team leaders, analyzed them thoroughly, and designed efficient and scalable database structures.
- Supported the front-end team by providing technical guidance and collaborating on API integration.
- Wrote comprehensive unit tests for API endpoints, ensuring code quality and functionality.

Project	Vehicle Registration Management - https://ttdk.com.vn
Descriptions	Management application allows summarizing and managing vehicle registration data.
Responsibilities	Develop APIs, design database, unit test.
Tech stack	• Frontend: React, Redux, Antd, Tailwind, etc. • Backend: Node - Hapi Framework, MySQL, Redis, Docker, etc.

Back-end Developer Intern   07/2022 - 09/2022

Meow House | Remote

- Developed and maintained the company's website based on the requirements and feedback from superiors.
- Gained practical experience in deploying web servers on Microsoft Azure.

Personal Projects

02/2023 - present

Project	**Loan Application Management** - https://coop-credit.vn
Descriptions	Website helps manage customers, gifts, loan requests, report outstanding debt and print loan documents.
Position	Full-stack Developer
Responsibilities	• Gather customer requirements. • Plan the project. • Analyze, design, and develop the website. • Test and write user documentation. • Deployment.
Tech stack	• Frontend: React, Antd, Scss, etc. • Backend: Nest, TypeORM, MySQL, etc. • Deployment: Aws Ec2, Docker, Nginx.
